

## About our school in English

## What you need to know...

As a fundamental basis for your educational and private success within our fast paced digital world, the higher commercial college in Fürstenfeld known as "Marketing HAK" provides not only comprehensive education, but also particular schooling for jobs within the field of economy.

Within lessons, which are oriented towards acquiring practical knowledge, you gain insight in economic concepts. Moreover, you develop your personality and deepen your knowledge in communication, economy, natural sciences and culture.

With focus on innovation you can face current challenges and take responsibility for society and economy. Speaking two foreign languages makes you fit for your international performance.

# In a nutshell...

## innovative

Your strengths help you to develop ideas, face challenges and take responsibility for yourself and others.

## digital

Bringing your mobile device to school and using it in all subjects you are able to deepen your knowledge in e-business and marketing.

## connected

As part of a strong and committed team you develop your personality as you establish connections with high flexibility.

## international

Two foreign languages make you fit for your international performance including language trips, projects and work experience.
